## **Projects**

**Mab:**

**Role:** Front – end developer

**Technologies:** React, Tailwind, Mongo DB, Node.js

**Description:** Build a web App Build using React.js that allow users to post their product to advertise to customers and simplified finding for product when customer looking for some product but they don't know where to find so the web app can direct them to the shop that have availability of the product that they are in need for.

**Auto message:**

**Role:** Front-end developer

**Technologies:** React, Django, mongo DB, Docker

**Description:** is a message API build to handle response to some messaging apps like whatsapp and discord and user can even make a schedule message that need to send in a specific time. The API can take a responsibility of replying a message on a specific condition.

**Movie App:**

**Role:** Full stack

**Technologies:** React, mongo DB, Bootstrap.

**Description:** is a movies app that user can store their favourite movies there and they can access it anytime they want.

**HMS:** Hospital management system.

**Role:** Front-end Developer.

**Technologies:** PHP, Bootstrap, SQL CSS and HTML.

**Description:** is a hospital management system that build using PHP and it has two entry admin and user (client) the admin can add new doctor to the hospital and also a session that is available in the hospital so that the user can book an appointment through the system so the admin entry is the entry that have all the power to add, delete and update doctors and session information to the client. The second entry is client entry the it allow the user to book an appointment to a specific doctor that in need of and user can update and delete their information in the system and also they can see their previous appointment.

## Certification:

- Diploma in Data processing and information technology.
- Docker for Beginners.
- CIFIC: informatics education limited.
- Responsive design free code-camp.

## SOFT SKILLS:

- Team work.
- Collaboration.
- Communication skills.

## HOBBIES:

- Reading
- Coding
- Programming
- Tourist
- Learning
